The Kentucky Hickory Twitch

The Kentucky Craftsmen that make these great twitches, have all but retired. We've got a good supply of these hand crafted and durable twitches - but I am afraid when these are gone there won't be any more.

48 INCH HICKORY TWITCH are made with a copper top and nylon rope. Each one has it's own character and will last a lifetime.

Pet Collars & Leads

Made in our Paris, Kentucky workroom with the same skill and materials that go into our halters. Hand selected leather, solid brass fittings with a hand rubbed finish. For that finishing touch, add one of our deeply engraved, hand polished solid brass plates with up to two lines of engraving. Collar widths are proportional to the neck size from $\frac{5}{8}$ inch to $\frac{7}{8}$ inch. Order in even sizes.

New this year are our Black & Stainless collars and leads. We are using a nickel engraved plate with our NEW Black Line Items ... and they really look sharp!

I bought this collar for my dog over 5 years ago and she wears it 24 hours a day. A fabulous investment! Bought the flat leash to go with it and I have never handed over that leash at an Obedience Match or in a training class that the person has not looked at it, then the collar and said "Wow, this is nice!"

PINK

It all started a week and a half before the 2010 Kentucky Derby - we were asked to make Presentation Halters for the Derby and Oaks entries. The only catch was that the Oaks Fillies' Halters were to be Pink!

We're very traditional at Quillins and we were taken a little aback by the request ... but never shying away from a challenge we accepted and delivered this special order in less than a weeks time.

The Pink Halters have caused quite a stir and one was recently presented to Kentucky First Lady Jane Beshear at The Center for Women in Racing's - Horses and the Hearts of Women Gala.

The Quillin Pink Halter - as pictured in Cob or Mare sizes \$75.95 with Stainless hardware, add \$6.95 for a one line plate Belts and Collars Coming SOON!

Engraved Plates

Deeply engraved, hand cut, hand inked and made from heavy solid brass plates. We still make them one at a time and hand polish each one. Either Block (standard) or Roman text available.

BLACK & STAINLESS

We've made Black halters for years, but always with brass hardware and engraved plates. This year we've added Stainless Steel hardware and silver engraved (nickel over brass) plates to our popular Black Halters ... and I must say, they are quite the eye catcher. Available with all our regular halter options ... these are truly custom made (to order) in our Paris, Kentucky shop.

"A fine piece of leather. I have worn it nearly daily for 7 or 8 years. Stays supple and good looking with only neatsfoot oil. Stitching is still in perfect condition despite heavy work use and no thought to being careful with them. Likely because they're a bit recessed. Heartily recommend Quillin leather goods. Fine value that stands up to hard use."

Most, if not all, halter makers started out making tack. They added fine leather goods as the need and market dictated. All well and good, but fine leather goods and halters are not of the same ilk. Different skill sets and mind sets are involved in each.

We started on the fine leather goods side and migrated to more and more halter work as our business grew ... never losing or altering our attention to detail. Years of producing tailored leather goods, without short cuts, is an impossible habit to break.

You'll find our fine leather goods to be just as durable as our halters. While we will not go as far as to call them heirlooms ... they will last decades, possibly generations with just a little care. Best of all, the more you use them the better they look!

"I recently purchased the 8 1/2 x 11 cover, and it is an outstanding personalized item. It looks like it will last forever - no one I know has anything like this. The brass name plate really sets it apart! Nice work, folks."
